Invisible by Day, **Brilliant by Night!**

Our Custom bulbs measuring only 3/4 of an inch in size, encased in a frosted shell, with a single RGBW LED chip ensuring color perfection, free from distortion, featuring a dedicated white LED that offers warmer whites in a stunning vibrant look that is twice as bright as traditional string lights, the average system drawing less energy than a single 60W light bulb -75% less than our closest competitors!

16 Million Colors

Whether it's Christmas, Halloween, Thanksgiving, or any other special occasion, our lights can effortlessly transform any space.

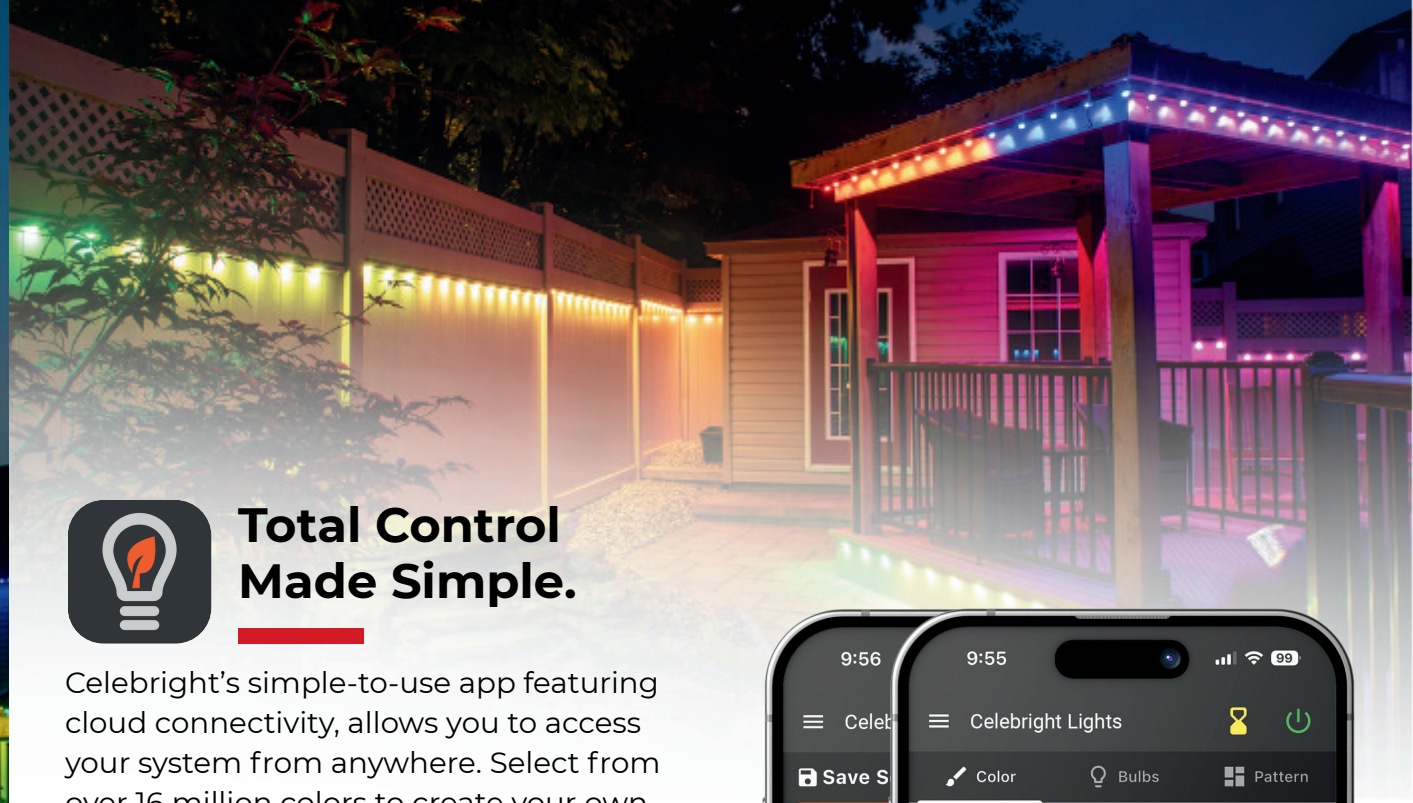

Enjoy adjusting patterns with a plethora of moving patterns, colors and brightness settings.

Pot Light Effect

With a simple tap, you can easily turn on selected lights and save custom pot light settings. Set your preferred lighting arrangement on a timer and forget it. You can even set it to turn on at dusk and off at dawn.

Total Control Made Simple.

Celebright's simple-to-use app featuring cloud connectivity, allows you to access your system from anywhere. Select from over 16 million colors to create your own custom display or choose from hundreds of patterns for any occasion. Take advantage of the schedule feature to plan your year in lights!

Additionally, Celebright now integrates with hundreds of cloud-based technologies through the IFTTT platform, enabling control via various smart devices and sensors. This allows for endless customization options, making Celebright lighting a seamless and powerful part of any smart home ecosystem.

Hey Google

"Alexa, turn on Celebright."
